

CREATING AVAILABILITY

Now that you are convinced of the quality and reliability of our solutions, we would love to tell you how we can support you in the advice and sales process of your customers.

ISO 27001 & ISO 9001 certified

We comply to the highest standards for quality, data protection and security that is needed in our market. Your customers are guaranteed to work with a reliable and ISO compliant vendor.

Microsoft Azure datacenter

In combination with our Microsoft Azure datacenter, on which the GoBright platform runs, we offer the highest form of data protection.

Please check www.gobright.com/downloads for our new brochure

Legal responsibility

We can assist you in legal negotiations or drawing up legal agreements with the customer.

Well trained and supported

The GoBright distributors are trained to provide demonstrations and training to their resellers. With this knowledge and experience you can support your customers best!

Share knowledge

Our IT & data security knowledge is extensive. So, we are happy to help you fill in customer questionnaires on these matters.

Legal documents to support our sales process

We provide a 'Data Processing Agreement' and 'License Subscription Agreement' to all our customers.

The DPA offers customers the assurance that we handle their data in a reliable and secure manner; according to the GDPR and ISO 27001 regulations.

The LSA regulates the legal framework regarding the standard use of GoBright's services.

Not every customer will automatically comply with our standard documentation. So, when adjustments are needed, we can support you in discussion with the customer.
