

NOTE:

With the release of this new pricelist, we are not able to guarantee our normal service levels on **Hardware** deliveries for an unknown period of time. Such as pricing, delivery times and stock levels. The reasons for this are:

- * Global shortage on chips and other components (high purchasing prices)
- * Global rising transportation costs
- * Global longer logistical lead times

We expect this to be a temporary situation. As soon as the market stabilizes and prices return to normal levels, we will also adjust our pricelist again.

ARTICLE NO.	DESCRIPTION	PRICE
